Lab 03 *free standing*

Complesso, leggero e al contempo materico, Lab 03 è un vero e proprio progetto di architectural-design. La sua geometria purissima, addolcita da curve morbide ed arricchita da una maniglia porta salviette integrata nella forma, lo rende un prodotto assolutamente contemporaneo. Uno shaping ed un materiale (Cristalplant®) innovativi, per una casa moderna e internazionale.

Imposing and complex, while at the same time light and contemporary in style, Lab 03 is the result of a true architectural and design project. Its totally essential lines, softened by the sensually-curved edges and enriched by a towel holder handle integrated in the shape, give this model its totally contemporary look. Innovative shape and material (Cristalplant®) for today's international domestic setting.
