TABULAE

mensole in ceramica
/ ceramic shelves

Il progetto Tabulae ha il punto di partenza nei piani in ceramica che ampliano la gamma produttiva di Galassia, presentando nuove soluzioni di arredo.

Una mensola sottile, dal design lineare, da interpretare in accostamento a strutture metalliche dalle linee essenziali o come piano per mobili.

La scelta dei colori e delle finiture dà la possibilità di abbinare Tabulae ad un'ampia selezione di lavabi e sanitari, ottenendo interessanti soluzioni di continuità cromatica e materica.

Tabulae project has the starting point in the ceramic tops that extend Galassia production range.

A slim shelf, with a linear design, to be interpreted in combination, with metal structures with essential lines or as a top for furniture.

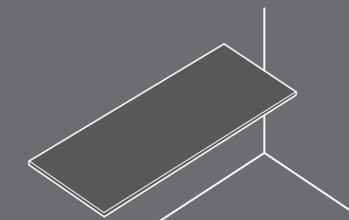

The choice of colors and finishes, allows to combine Tabulae with a wide selection of washbasins and sanitary ware, getting interesting solutions of chromatic and material continuity.

MEG11 PRO

Comprende una vasta serie di elementi di arredo ceramici, formati da lavabi collocati su strutture in metallo accessoriate, originali lavatoi sospesi, lavabi free standing e sanitari in coordinato. Tale varietà consente di offrire molteplici soluzioni stilistiche, dalle classiche a quelle particolarmente originali ottenibili dall'utilizzo insolito del lavabo-lavaotoio nell'ambiente bagno.

It includes a wide range of ceramic furnishing elements, made up of washbasins that can be placed on accessorized metal structures, original suspended, column-based wash basins and coordinated sanitary ware.

This variety allows to offer multiple stylistic solutions, from the classic one to the particularly original ones obtainable from the unusual use of the wash house sink in the bathroom.

MATERIALI:

Per la realizzazione dei nostri mobili viene utilizzato un pannello nobilitato con resina melaminica resistente alla luce, semplice da pulire, igienico e con elevata resistenza meccanica, chimica e termica, conforme alla DIM EN 14 322 CE EN 13986.

Il pannello è certificato con il marchio PEFC che garantisce la percentuale di legno 95% proveniente da foreste gestite in maniera sostenibile, con bassa emissione di formaldeide in classe E1. Le parti interne dei mobili sono realizzate con le stesse finiture dell'esterno. Il sistema di chiusura adoperava guide a scomparsa BLUM con tecnologia BLUMOTION per una chiusura silenziosa e rallentata. L'ancoraggio dei mobili è dotato di un particolare meccanismo di sicurezza antisgancio.

MATERIALS:

For the realization of our furniture we use a melamine resin coated panel: light-resistant, easy to clean, hygienic and with high mechanical, chemical and thermal strength, in compliance with DIM EN 14322 CE EN 13986.

The panel is certified under the brand PEFC which guarantees the percentage of wood at 95% from forests managed in a sustainable manner, with class E1 low formaldehyde emission. The internal parts of the furniture are made with the same finish as the exterior.

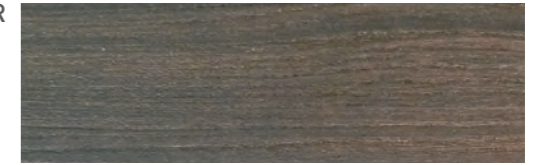

The closure system uses BLUM concealed runner with BLUM BLUMOTION technology for a slow and silent closing. The anchorage of the furniture is equipped with a particular mechanism of hook safety catch.
