WATERWORDS / LAB

ZUCCHETTI. WATER VALUES

Fin dai suoi esordi nel 1929 Zucchetti ha esaltato il valore dell'acqua disegnandone con cura e maestria i percorsi. Solidità progettuale, know-how e storicità sono valori cruciali per il marchio.

La produzione è da sempre realizzata in Italia, curata da personale esperto ed altamente specializzato, scegliendo con attenzione materiali eccellenti e soluzioni tecnologiche e produttive all'avanguardia, per garantire sempre il massimo risultato.

Ricerca ed innovazione, cultura del progetto e qualità sono parte dell'esperienza industriale di Zucchetti, che negli anni si è avvalsa della collaborazione di molte prestigiose firme del design internazionale, per anticipare ed interpretare le esigenze di un mercato globale, con un linguaggio polifonico. La gamma prodotti Zucchetti è ampia e trasversale, per adattarsi con eleganza ad ogni progetto di interior, per qualsiasi tipologia di utente.

Since it was founded, Zucchetti has enhanced the value of water by designing its paths with care and mastery. Flawless design, know-how and history are crucial values for the brand.

The production has always been made in Italy, handled by experienced and highly skilled staff, using only the best, scrupulously selected raw materials and technologically advanced machineries, in order to always guarantee the best results.

Research and innovation, design culture and quality are part of Zucchetti's industrial experience, which over the years made use of the collaboration of many prestigious international design firms, to anticipate and interpret the desire of a global market, with a polyphonic language. The Zucchetti product range is wide and crossing, to adapt to any interior project with elegance, for any type of user.

ZUCCHETTI. QUALITÀ ED ECOSOSTENIBILITÀ QUALITY AND ECO-SUSTAINABILITY

Zucchetti garantisce standard qualitativi elevati in relazione ai prodotti, ai processi produttivi ed alle politiche ambientali, perseguendo una strategia aziendale improntata al miglioramento continuo.

Le collezioni di rubinetteria sono prodotte per durare nel tempo e gli articoli vengono severamente testati internamente e da laboratori di prova esterni, che ne garantiscono affidabilità e resistenza, rinnovando di anno in anno le certificazioni dei prodotti.

Oggi adottare comportamenti sostenibili è diventato un imperativo per tutti coloro, aziende o privati, che abbiano a cuore il destino della terra. In Zucchetti questo è da sempre un aspetto prioritario: da un lato i sistemi e gli impianti produttivi subiscono costantemente aggiornamenti ed evoluzioni, dall'altro la professionalità delle risorse umane viene garantita grazie a specifici programmi di formazione, atti ad assicurare anche la salvaguardia di salute e sicurezza. Tutto questo ha permesso di ottenere la prestigiosa certificazione UNI ISO 45001:2018.

La consapevolezza del valore dell'acqua è parte del DNA aziendale, per questo la rubinetteria o i sistemi doccia adottano dispositivi e soluzioni ad hoc che consentono di avere sempre una portata limitata, in ottemperanza alle normative vigenti, con un notevole risparmio di acqua ed energia, senza nulla togliere al comfort di utilizzo.

Inoltre la produzione è ecosostenibile grazie alle costanti attività di controllo, depurazione e riciclo delle considerevoli quantità di acqua utilizzate nel ciclo produttivo, nel pieno rispetto del territorio. Zucchetti ha da tempo messo in atto anche azioni di contenimento della produzione di CO2 derivante dal consumo di energia elettrica, grazie all'utilizzo di energia verde certificata, in conformità con la normativa ISO EN 14064.

Zucchetti guarantees high quality standards in relation to its products, manufacturing processes and environmental policies, pursuing a corporate strategy focused on continuous improvement.

The taps' collections are made to last and all items are extensively tested both in-house and by external laboratories, which guarantee reliability and durability, renewing product certifications year after year.

Today, ecological habits have become a must for anyone, company or individual, who cares about the fate of planet Earth. At Zucchetti, sustainability has always been a priority: on the one hand, the advanced manufacturing plants and equipment are constantly updated, and on the other hand, the professionalism of our human resources is guaranteed thanks to targeted training programmes, which are aimed at protecting personal health and safety. This has led to prestigious UNI ISO 45001:2018 certification.

Awareness of the value of water is in the company's DNA, which is why Zucchetti taps and shower systems integrate specially-designed devices and solutions that ensure a limited flow rate at all times, in compliance with current regulations. This results in considerable savings in terms of water and energy, without any reduction in user comfort. Moreover, the manufacturing methods are environmentally sustainable thanks to the constant monitoring, purification and recycling of the considerable amount of water used, demonstrating our respect for nature. For some time now, Zucchetti has also adhered to policies which limit the production of CO2 deriving from energy consumption, thanks to the use of certified green power, in compliance with ISO EN 14064.

Water for All: Conserve, Value, Enjoy

Singapore

Consapevoli della sempre maggiore importanza della certificazione LEED (Leadership in Energy and Environmental Design), ossia del sistema di valutazione per la sostenibilità degli edifici, l'ufficio tecnico Zucchetti è a disposizione per dare supporto a chi costruisce e fornire consulenza ed informazioni atte a certificare che i prodotti Zucchetti installati, siano allineati con gli standard richiesti per l'ottenimento di tale certificazione nell'edificio in esame. La stretta collaborazione tra azienda, progettisti ed installatori è una pratica consolidata che rientra nelle politiche di qualità dei servizi offerti.

Le collezioni ISY22, HELM, MEDAMEDA, BELLAGIO, JINGLE, PAN, ON, BRIM, GILL, NIKKO e le proposte SHOWER garantiscono il massimo risparmio d'acqua ed i prodotti sono contraddistinti dal marchio Water Saving.

Questo simbolo identifica:

- articoli lavabo e bidet con una portata d'acqua uguale o inferiore a 6 l/min
- soffioni e doccette con una portata d'acqua uguale o inferiore a 9 l/min

Una vasta gamma di prodotti che può rispondere ad ogni esigenza progettuale.

Aware of the ever-increasing importance of LEED certification (Leadership in Energy and Environmental Design), namely the system for assessing the sustainability of buildings, the Zucchetti Technical Department is available to support builders and contractors. We can provide advice and information to attest that the installed Zucchetti products are in accordance with the standards required by the building, to obtain this certification.

The close collaboration between company, architects, engineers and installers is a consolidated practice that is part of the quality policies for the offered services.

The ISY22, HELM, MEDAMEDA, BELLAGIO, JINGLE, PAN, ON, BRIM, GILL, NIKKO and SHOWER collections guarantee maximum water savings and feature products bearing the 'Water Saving' label:

This symbol identifies:

- washbasin and bidet items with a water flow rate of 6 l/min or less
- shower heads and handshowers with a water flow rate of 9 l/min or less

This wide range of products is sure to satisfy the needs of any design project.

ZUCCHETTI. RICEVERE UN PREMIO AWARDS

Innovare è da sempre parte della filosofia aziendale. La capacità di proporre idee originali insieme con l'esperienza ed il know how industriale, sviluppati in oltre 90 anni di storia, hanno permesso di realizzare progetti e prodotti unici ed all'avanguardia, premiati con i più prestigiosi premi internazionali di design. Un grande riconoscimento e una gratificazione per la passione e l'impegno profusi ogni giorno da coloro che fanno parte del team Zucchetti.

Innovation has always been part of the company philosophy. The ability to propose original ideas together with the experience and industrial know-how, developed in over 90 years of history, enable us to create unique and cutting edge projects and products, awarded with the most prestigious international design awards. These awards represent a great recognition and gratification for the passion and commitment that inspire those who are part of the Zucchetti team.

ZUCCHETTI. IL NUOVO LISTINO 2022

Il nuovo Listino Zucchetti 2022 si divide in due sezioni:

- **WATERWORDS** che comprende tutte le collezioni di rubinetteria ed accessori bagno di design, alto di gamma: Nude, Bellagio, Aguablu, Savoir, Agorà Classic, Agorà, Soft, Helm, ISY22 – prodotto novità, Isy, Medamedea, Closer, Delfi, Jingle e Pan.
- **LAB** che raccoglie le collezioni di rubinetteria ed accessori bagno di impronta più semplice: On, Brim, Gill, Simply Beautiful e Nikko. L'ampliamento della collezione GILL nella versione tradizionale è la new entry nella sezione LAB.

In coda al volume trovano spazio i capitoli dedicati ad esigenze specifiche:

- **Docce** che raccoglie la nuova collezione Hoop e tutti i soffioni, doccette e complementi doccia.
- **Elettronici**
- **Cucina**
- **Accessori Bagno**

E i capitoli dedicati alle parti più tecniche:

- **Parti Incasso**
- **Articoli Vari**
- **Ricambi e Prolunghe**

Il Listino Zucchetti è un efficace strumento di lavoro, sia per chi si occupa delle vendite, sia per chi progetta. In apertura è disponibile una ricca sezione tecnica per dare maggiori informazioni sulle finiture a catalogo e sulle varie tipologie di rubinetteria termostatica, per spiegare e suggerire le configurazioni più adatte ad ogni esigenza.

Le collezioni sono presentate in ordine decrescente di prezzo.

I singoli articoli sono descritti con codice, immagine, disegno tecnico quotato, descrizione, finiture e prezzo.

Ciascun articolo è proposto al prezzo unitario IVA esclusa. Ove espressamente indicata una confezione multipla il prezzo si riferisce alla confezione.

ZUCCHETTI. THE NEW 2022 PRICE LIST

The new 2022 Zucchetti Price List is divided in two sections:

- **WATERWORDS** which includes all taps and bathroom accessories top of the range collections: Nude, Bellagio, Aguablu, Savoir, Agorà Classic, Agorà, Soft, Helm, ISY22 – new product, Isy, Medamedea, Closer, Delfi, Jingle e Pan.
- **LAB** which collects the taps and bathroom accessories series with a more simple imprint: On, Brim, Gill, Simply Beautiful and Nikko. The 2 handle version of the GILL collection is a new entry.

At the end of the publication are some chapters dedicated to specific needs:

- **Showers** that lists the new Hoop collection and all shower heads, handshower and shower kits.
- **Electronics taps**
- **Kitchen**
- **Bathroom Accessories**

And some chapters related to technical parts

- **Built-In Parts**
- **Miscellaneous**
- **Spare Parts And Extensions**

Zucchetti Price List is an effective work tool for both sales personnel and designers.

At the beginning, there is a rich technical section to give more information about product finishes and the various types of thermostatic mixers, to explain and suggest the most suitable configurations for every need.

The collections are presented in descending order of price.

Individual products are listed with code, image, dimensional technical drawing, description, available finishes and price.

Each product is shown with its unit price, excluding VAT. When it is expressly stated that the product is sold in a pack of several items, the price refers to the entire pack.

ZUCCHETTI. FOCUS DOCCIA SHOWER FOCUS

Zucchetti offre molteplici proposte per la personalizzazione dello spazio doccia, soluzioni tecniche in grado di rispondere ad ogni esigenza progettuale, scegliendo liberamente la collezione che meglio si addice allo stile del proprio bagno.

Oggi lo spazio doccia può essere realizzato anche scegliendo i nuovi miscelatori termostatici Hoop a pulsanti, che grazie ad un design essenziale e trasversale possono essere abbinati a qualsiasi forma di rubinetteria.

I miscelatori termostatici consentono di impostare la temperatura dell'acqua alla gradazione desiderata e di mantenerla costante durante tutto il periodo di utilizzo, anche se si verificano variazioni di pressione o temperatura. La valvola termostatica interna miscela continuamente acqua calda e fredda in modo da mantenere la temperatura in uscita costante, alla gradazione preimpostata. Un dispositivo di sicurezza assicura che la temperatura dell'acqua miscelata non superi inavvertitamente i 38°C, temperature superiori sono raggiungibili solo mediante pressione di un tasto di sicurezza. È una rubinetteria comoda, sicura, affidabile e vantaggiosa sotto il profilo del risparmio, sia idrico che energetico.

Zucchetti offers a wide range of solutions for the personalization of the shower area, technical solutions that meet any design needs, freely choosing the collection that best suits your own bathroom style.

Today the shower area can also be conceived by choosing the new Hoop thermostatic push-button mixers, which thanks to an essential and cross-cutting design can be combined with any taps shape.

Thermostatic mixers allow to set the water temperature to the desired gradient, to reach it in a very short time and to keep it constant throughout the period of use, even if pressure or temperature changes occur. The inner thermostatic valve mixes hot and cold water, to maintain the constant output temperature at the pre-set scale.

A safety device ensures that the mixed water temperature does not inadvertently exceed 38° C, higher temperatures can be reached only by pressing a safety button. It is a comfortable, safe, reliable and cost-effective mixer, in terms of both water and energy saving.

Versatile, essenziale nella forma, intuitivo e funzionale. Hoop, il sistema doccia a pulsanti, è declinato nella versione termostatica per vasca e doccia, abbinando da una a quattro uscite acqua.

Hoop combina il comfort dei rubinetti termostatici con una estetica nuova, polivalente e immediata. Con un semplice gesto, l'acqua si apre o si chiude premendo il tasto corrispondente all'elemento desiderato (doccetta, soffione, bocca, ecc.).

Hoop può essere accostato a qualsiasi collezione di rubinetteria e installato in orizzontale o verticale, consentendo ampia libertà compositiva. Il benessere e la sicurezza sono sempre garantiti grazie ad un dispositivo che non consente di superare inavvertitamente i 38° C di temperatura dell'acqua.

Hoop può essere acquistato scegliendo una delle configurazioni standard proposte o abbinando liberamente gli elementi singoli.

Versatile, minimal, intuitive and functional. Hoop, the push – button shower system, comes in a thermostatic version for bath and shower and can combine one to four water outlets.

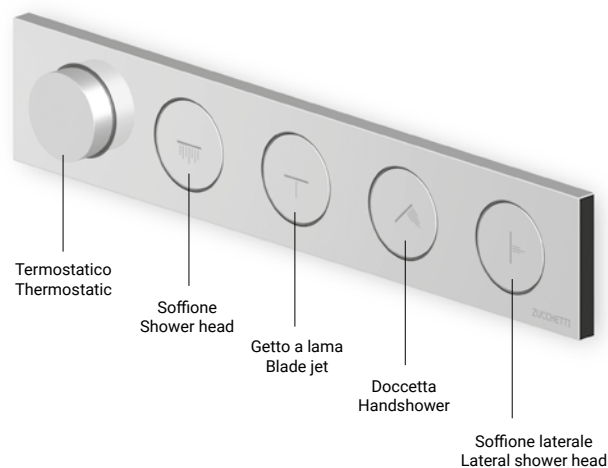

Hoop joins the unrivalled convenience of thermostatic mixers with modern, versatile, direct aesthetics. With a simple gesture, the water is turned on or off by pressing the button corresponding to the desired output (hand shower, shower head, body jets, spout etc.).

Hoop can be teamed with any line of taps and it can be installed horizontally or vertically, allowing ample compositional freedom. Wellness and safety are guaranteed thanks to a device that keeps the water temperature steady, ensuring that it never inadvertently exceeds 38° C.

Hoop can be purchased by choosing one of the standard configurations or by freely combining the individual elements.

TERMOSTATICO INCASSO BUILT-IN THERMOSTATIC MIXER MIXER

La gamma di miscelatori termostatici con rubinetti di arresto incastellati è disponibile per tutte le serie Waterwords e Lab, tranne Nikko.

Il miscelatore termostatico con da 1 a 4 rubinetti di arresto consente la progettazione di impianti doccia con più uscite, utilizzabili anche contemporaneamente, abbinando ad esempio soffione a pioggia con body jets, oppure soffioni multifunzione con più getti che possono essere sommati.

Ad una pressione dell'acqua minima di 3 bar, i sistemi doccia realizzati abbinando questa tipologia di miscelatori termostatici con soffioni, soffioncini laterali, doccette e bocche della gamma Zucchetti, garantiscono sempre un getto ottimale anche quando tutte le uscite acqua sono aperte contemporaneamente. I termostatici con rubinetti di arresto incastellati hanno una parte incasso unica per tutte le collezioni realizzata in ottone Ecodr, compatibile con le normative mondiali.

Possono essere installati sia in verticale che in orizzontale. La struttura della parte incasso è stata pensata in modo tale da ottimizzare le distanze tra i singoli elementi, è compatta e di facile manutenzione grazie a cartuccia e filtri ispezionabili.

The range of thermostatic mixers with stacked stop valves is available for all Waterwords and Lab series, except Nikko.

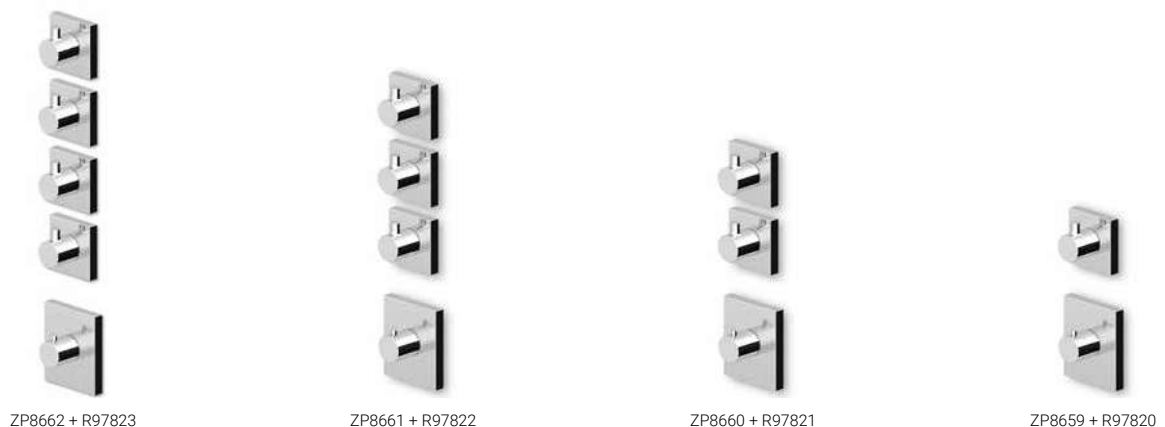

The thermostatic mixer with 1 to 4 stop valves allows to design shower units with multiple outlet which can be used simultaneously. For example, a rain shower with body jets, or a multi-function shower head with all different jets working at the same time. With a minimum required water pressure of 3 bar, the shower systems made by combining these types of thermostatic mixers with shower heads, body jets, hand showers or spouts of the Zucchetti range, guarantee an optimal water flow even when all outlets are open simultaneously.

The built-in part for the thermostatic mixers with stacked stop valves is in common for all the collections and it is made of Ecodr brass, compatible with worldwide standards. They can be installed both vertically or horizontally and the structure of the built-in part is designed to optimize distances between each element, it is compact and easy to maintain thanks to inspectable cartridge and filters.

**MISCELATORI TERMOSTATICI CON DEVIATORE
A 2/3 VIE CON COMANDO ACQUA**

**THERMOSTATIC MIXERS WITH 2/3
WAY DIVERTER AND WATER ON/OFF FUNCTION**

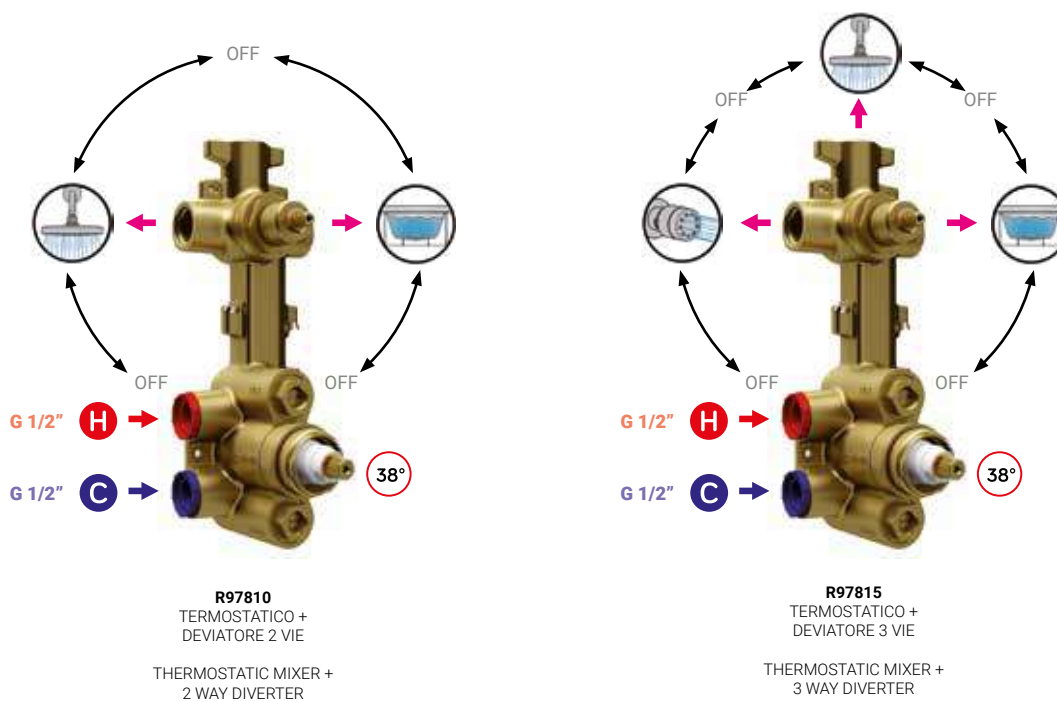

La gamma di miscelatori termostatici ad incasso con deviatore a 2 o 3 vie e apertura e chiusura acqua è disponibile per tutte le serie Waterwords e Lab, tranne Nikko.

In ciascuna collezione la stessa parte esterna Z..646 o Z..644 può essere abbinata con 2 diverse parti incasso, R97810 incasso a 2 vie e R97815 incasso a 3 vie. Le nuove parti incasso R97810 e R97815 sono state pensate per facilitare l'installazione a muro, consentendo un esatto posizionamento anche prima della posa del rivestimento di finitura della parete. E' una soluzione che agevola il montaggio e garantisce funzionalità nel tempo, avendo cartucce e filtri facilmente ispezionabili.

Il sistema ha dimensioni contenute ed è realizzato in ottone Ecodr, compatibile con le normative mondiali.

A range of built-in thermostatic mixers with 2 or 3 way diverter and water on/off function for all Waterwords and Lab series, except Nikko.

In each collection the same external part Z..646 or Z..644 can be combined with 2 different built-in parts, R97810 built-in 2 way diverter and R97815 built-in 3 way diverter. The new built-in parts R97810 and R97815, make the wall installation easier, and allow the perfect positioning even before placing the wall coating. It is a solution aimed to facilitate the assembling and to guarantee functionality over time, because cartridges and filters are very easy to inspect. This system is small in size and it is made of Ecodr brass, compatible with worldwide standards.

ZP8646 + R97815

R97800

Box incasso universale per miscelatori monocomando doccia o vasca doccia e miscelatori termostatici con un rubinetto di arresto, disponibile per le collezioni Bellagio, Soft, Isy22, Isy, Medamedea, Jingle, Pan, On, Brim, Gill, Simply Beautiful e Nikko.

Di facile installazione Zetasytem consente di poter installare la parte ad incasso e poi decidere in un secondo momento la tipologia e la collezione della rubinetteria per la doccia.

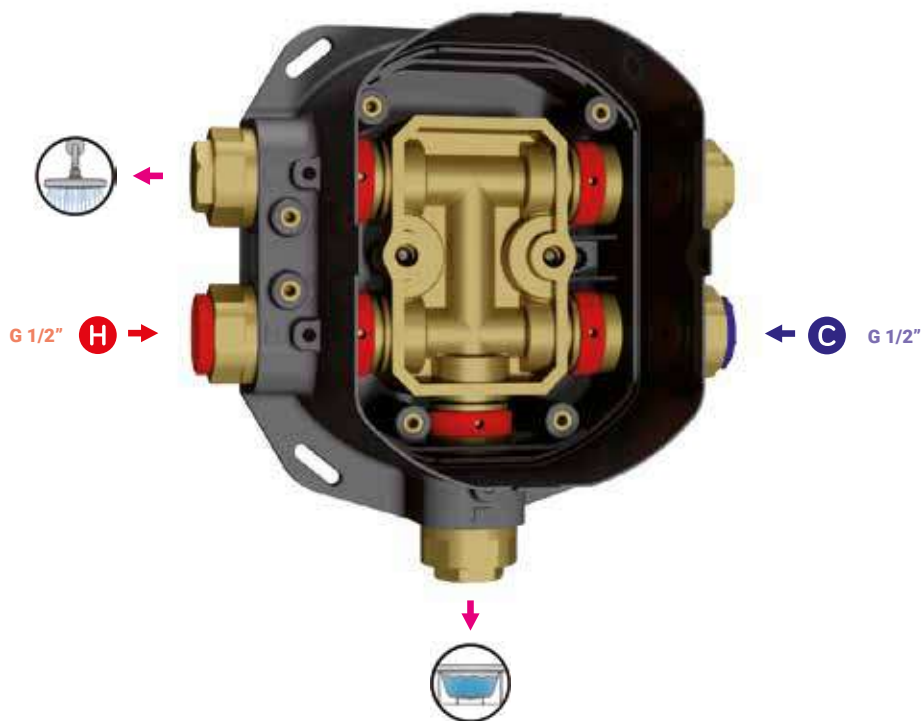

Zetasytem è compatibile con i sistemi di installazione più comuni e con tutti i tipi di tubature e raccordi; può essere fissato su due livelli a seconda che si lavori con pareti in muratura o con pareti in cartongesso, per rispondere in modo ottimale alle diverse esigenze costruttive.

Zetasytem garantisce il perfetto isolamento dall'umidità e isolamento acustico. Il box è realizzato in ABS, le valvole in ottone materiali ecocompatibili, rispondenti alle normative mondiali.

R97800

Universal built-in box for single lever shower and bath-shower mixers or thermostatic mixers with one stop valve, available for the Bellagio, Soft, Isy22, Isy, Medamedea, Jingle, Pan, On, Brim, Gill, Simply Beautiful and Nikko collections.

Easy to use, Zetasytem allows to install the built-in part and then, in a later stage, to decide the type and collection of the shower mixers. Zetasytem is suitable for the most common installation systems and all types of pipes and fittings; in order to respond at best to the different construction requirements, it can be set up on two levels depending on the type of wall, in masonry and plasterboard. Zetasytem guarantees the perfect humidity and acoustic insulation. The box is made of ABS, while the valves are made of brass, eco-friendly materials, in concrete with the international standards.

To better meet today's different lifestyle needs, Zucchetti collections are proposed in various finishes. From shades of gold for a more classic look to black and white for its design collections, interior designers have a whole range of ideas for the creation of personalised projects.

For all series except Helm, metal finishes, available in both polished and brushed variants, include nickel (C8-C3), gold (C40-C41) and metal black (C50-C51). Produced using the galvanic process in the Zucchetti factory, they guarantee perfect product quality.

The rose gold (P70), British gold (P31) and brushed copper (P91) finishes are instead achieved with the PVD treatment.

In addition, painted colours are also available in embossed matt white (W1), embossed matt black (N1), matt black (N6) or Mediterranean blue (XP91).

The stainless steel Helm collection is available, in addition to the base stainless still brushed finish (X), also in 4 other dedicated nuances: Brushed Gold XP41, Brushed British Gold XP31, Brushed Total Black XP81 and Brushed Copper XP91. All steel finishes are obtained through PVD process.

All shower heads in brushed stainless steel - finish .X - can be combined with the taps in brushed nickel finish .C3.

The table below summarizes all colour variants available on our price list for each collection.

Elementi variabili della serie:

1. Rosone
2. Finitura

Variable elements of the range:

1. Flange
2. Finishing

1. Rosone:

La serie è disponibile in versione con rosone decorato (ZSA) o con rosone liscio (ZSV).

1. Flange:

The range is available with embossed flange (ZSA) or with smooth flange (ZSV).

ZSA Rosone decorato
ZSA Embossed flange

ZSV Rosone liscio
ZSV Smooth flange

2. Finitura:

La serie è disponibile in finitura cromata con maniglie cromate (CC) o con maniglie laccate nella parte superiore (C-), o in finitura nickel con maniglie nickel (C8C8) o con maniglie laccate nella parte superiore (C8-).

2. Finishing:

The range is available in chrome finishing with chrome handle (CC) or with upper handle lacquered (C-), or in nickel finishing with nickel handle (C8C8) or with upper handle lacquered (C8-).

Colore laccatura maniglie: sostituire nel codice - con il colore scelto.

Handle lacquered colors: replace - by the finishing here below.

ZUCCHETTI.

CONDIZIONI DI VENDITA

Con il conferimento dell'ordine si intendono integralmente accettate tutte le seguenti condizioni di vendita di Zucchetti Rubinetteria S.p.A. (di seguito anche "Zucchetti" "Azienda" o "Venditore").

PREZZI

I prezzi dei listini Zucchetti sono espressi in € (Euro), sono soggetti a variazioni e non sono impegnativi. Essi si intendono per merce resa franco stabilimento di produzione, IVA e imballo esclusi. Ogni ordine, comunque conferito, potrà essere ritenuto valido solo se accettato mediante regolare conferma d'ordine. Tutte le offerte dirette ed indirette si intendono senza impegno. Il listino prezzi Zucchetti è riservato alle aziende e agli operatori economici.

PAGAMENTI

I termini di pagamento specificati in fattura si intendono tassativi: ogni variazione, che non sia stata preventivamente ed espressamente pattuita, verrà respinta. Il ritardato pagamento delle forniture darà luogo all'addebito degli interessi di mora come stabilito dalla vigente normativa. Al verificarsi di pagamenti non eseguiti nei termini convenuti è facoltà del Venditore sospendere le consegne e gli eventuali ordini già accettati. Si precisa che nessun pagamento potrà essere differito in caso di contestazione. Eventuali aggiunte o modifiche effettuate dal Cliente su ordini da lui trasmessi saranno prive di validità se non comunicate in forma scritta e poi accettate, sempre in forma scritta, dal Venditore.

Nel caso in cui il Cliente non paghi quanto dovuto nei tempi prestabiliti o risulti inadempiente ad ulteriori obblighi presenti nelle condizioni di vendita e/o siglati con ulteriori scritti, il Venditore avrà la facoltà di risolvere qualsiasi rapporto di fornitura con effetto immediato, trattenendo a titolo di penale le relative somme già pagate, fatta salva ogni ulteriore richiesta di risarcimento del danno. Il tutto senza alcun onere penale o responsabilità nei confronti del Cliente.

DATI IDENTIFICATIVI DEL CLIENTE

Il Cliente è responsabile di tutti i dati di identificazione forniti al Venditore quali: Ragione Sociale, Sede Legale, Codice Fiscale, Partita IVA e quant'altro specificatamente richiesto in materia dalla legislazione vigente.

TERMINI DI CONSEGNA

I termini di consegna sono approssimativi e non danno diritto al Cliente di annullare l'ordine o reclamare danni di qualsiasi entità per ritardi derivanti da accidenti di fabbricazione, da scioperi, da trasporti, da pandemia o da altre cause di forza maggiore o caso fortuito. Il Venditore si riserva la facoltà di evadere un ordine con più consegne a seconda delle effettive disponibilità di prodotto.

IMBALLAGGIO

Gli imballi sono eseguiti a regola d'arte da personale specializzato.

TRASPORTO

La merce viaggia a rischio e pericolo del Cliente e, anche se la spedizione è effettuata in porto franco, il Venditore declina ogni responsabilità per ritardi, guasti, avarie, rotture, ammacchi che si verificassero durante il trasporto. Spetta al Cliente presentare eventuali reclami al trasportatore facendosi rilasciare una dichiarazione di immediata constatazione, anche se questi è stato scelto dal Venditore.

Il Venditore si riserva la facoltà di addebitare al Cliente gli oneri aggiuntivi al puro costo di trasporto (e.g., soste, operazioni di scarico particolari, ecc.), eventualmente corrisposti al vettore. Le spese di trasporto, salvo patto contrario, sono a carico del Cliente.

RESPONSABILITÀ

Tutti gli articoli del Venditore sono accuratamente provati e controllati. La responsabilità del Venditore sulla qualità dei materiali si limita, previa autorizzazione, ad accettare il reso, in porto franco a Gozzano, imballo gratis, di pezzi riscontrati difettosi per disporre la sostituzione, senza essere tenuto a corrispondere alcun indennizzo. Non è possibile inoltre accettare alcuna responsabilità ove i materiali forniti risultassero manomessi. Si esclude qualsiasi tipo di risarcimento per danni diretti o indiretti causati dalla posa in opera di materiale difettoso. È fatto assoluto divieto ai Clienti di effettuare qualsiasi lavorazione ulteriore sui prodotti del Venditore. Il Venditore non riceverà merce in restituzione se non sarà da essa stessa autorizzata.

DISPOSIZIONI GENERALI

Il Venditore si riserva il diritto, in qualsiasi momento, di modificare le caratteristiche tecniche dei prodotti, nonché modificare o sopprimere modelli. Le illustrazioni e le descrizioni contenute nel presente listino (e nei cataloghi) rappresentano i singoli articoli e non costituiscono impegno di fedele esecuzione. I dettagli, le misure ed i pesi indicati devono ritenersi indicativi e possono essere modificati senza preavviso.

RECLAMI

I reclami devono essere presentati entro 8 (otto) giorni dal ricevimento della merce per il mercato italiano ed entro 2 (due) giorni dal ricevimento della merce per i mercati esteri. Dopo tali termini non potranno più essere accettati.

La contestazione dovrà pervenire al Venditore tramite comunicazione scritta contenente: il dettaglio dei difetti riscontrati, il numero di pezzi difettosi rilevati, le modalità di verifica attuate, i riferimenti della consegna (ddt e dettagli etichette apposte sul cartone) ed ogni elemento utile (fotografie) per consentire al Venditore di rintracciare il prodotto e le relative registrazioni oggetto della contestazione ed eventualmente attuare le prime azioni correttive immediate. Eventuali richieste di reso o rilavorazioni/selezioni presso il Cliente saranno autorizzate solo dopo le opportune valutazioni.

In nessun caso il Cliente può sospendere il pagamento del prodotto oggetto di contestazione. Il Cliente non potrà effettuare alcuna lavorazione, riparazione o intervento sul prodotto se non preventivamente concordato per iscritto con il Venditore.

FORO COMPETENTE

Per qualsiasi controversia è espressamente convenuto che si dovrà adire esclusivamente alle competenti autorità giudiziarie di Borgomanero e Novara. Per quanto non espressamente convenuto valgono le norme di legge vigenti.

ZUCCHETTI.

GENERAL SALE CONDITIONS

Upon the confirmation of the order, all the following conditions of sale of Zucchetti Rubinetteria S.p.A. (hereinafter also as the "Company" or the "Seller") are understood to be fully accepted.

PRICES

The prices stated in the Zucchetti price-lists are in € (Euro), are subject to change and not binding. The prices have to be considered ex-works factory in Gozzano, packing and VAT excluded. Orders are valid only if accepted by regular order confirmation. All Seller direct and indirect offers are not binding. Zucchetti pricelists are for enterprises and economic operators only.

PAYMENTS

All payments terms specified in the invoice are binding: any variation, which has not previously and expressly agreed in writing, will be rejected. Delayed payments of the supplies will cause the charge of the relevant bank interests to the extent provided for by the regulations in force. In the event of payments not made within the agreed terms, the Seller is entitled and has the right to hold deliveries and any order already confirmed. No payment can be differed in case of disputes. Any additions or changes made by the Customer on purchasing orders will not be valid unless communicated in writing and then accepted in writing by the Seller.

In the event that the Customer fails to pay the due amount, within the agreed terms, or it is found to be in breach of further obligations under the terms of sale and / or signed with additional writings, the Seller is entitled and has the right to resolve the business relationship with immediate effect. The Seller has the right to hold, as a penalty, the sums already paid, without prejudice to any further claims for compensation of the damages. All without any criminal burden or liability towards the Customer.

CUSTOMER IDENTIFICATION DATA

The Customer is responsible for all the identification data provided to the Seller, such as: company name, registered office, fiscal code, VAT number and any other information specifically requested by the existing law.

DELIVERY TERMS

Delivery terms are approximate. Possible delay due to production accidents, strikes, transport, pandemic events or to any others reason of Force Majeure, do not give the right to recede from the purchase contract or to claim for damages. The Seller reserves the right to fulfil an order in multiple deliveries according to availability of products.

PACKAGING

The packaging is made properly by specialized personnel.

TRANSPORT

The delivery is made at Customer's risk and peril even if the term free destination has been agreed. The Seller declines any responsibility for delays, damages, breakages, shortages during transportation. Any claim has to be presented directly by the Customer to the carrier, even if this one has been chosen by the Seller. The Seller reserves the right to charge the Customer with additional charges to the mere transportation costs previously paid to the carrier (e.g., demurrage, special unloading operations, and so on). Transport costs, unless otherwise agreed, are borne by the Customer.

RESPONSIBILITY

All Seller products are carefully tested and checked. Seller's responsibility for the quality of the material is limited to the acceptance of defective goods return, only after previous written agreement. The goods must be returned free to Gozzano, without any charge for packaging. It is left to the Seller's decision whether to replace them (in any case without the bond to pay any allowance).

Seller assumes no responsibilities for wrong handling of the supplied articles. Any claim for compensation of direct or indirect damages caused by the setting of defective material is excluded. Any further working on goods of the Seller is absolutely prohibited. The Seller will accept return of goods only after its previous authorization.

GENERAL PROVISIONS

The Seller reserves the right, at any time, to modify the technical characteristics of the products, as well as to modify or discontinue models. The images and descriptions contained in this price list or in the catalogues represent individual articles and do not constitute an undertaking of faithful execution. The details, measurements and weights indicated must be considered as indicative and may be modified without notice.

CLAIMS

Claims will be accepted only within 8 (eight) days from receipt of goods for the Italian market and within 2 (two) days from receipt of goods for foreign markets: no claims will be accepted after these terms.

The claim must be sent to the Seller by written notice, detailing: the defects found, the number of defective parts detected, the verification methods implemented, the delivery references (e.g., ddt and label details attached to the box) and any other useful elements (e.g., photographs) to allow the Seller to track the product, the related records of the claim and, if the case may be, implement the first immediate corrective actions.

Any request for return or rework / selection at the Customer place will be authorized only after appropriate evaluations.

Under no circumstances the Customer can suspend the payment of the product object of the claim. The Customer cannot perform any work, repair or intervention on the product unless previously agreed in writing by the Seller.

JURISDICTION

In case of dispute, competent courts will be Borgomanero and Novara.

For anything not explicitly stated, the rules of law in force apply.

ZUCCHETTI. GARANZIA

Tutti i prodotti Zucchetti vengono sottoposti ad accurati controlli durante ogni fase del ciclo produttivo per fornire le migliori garanzie sulla qualità del prodotto.

I prodotti sono garantiti in conformità alle leggi vigenti in materia di garanzia nel paese dove l'acquirente ha sede legale, per acquisti comprovati da regolare documento fiscale.

La garanzia copre i seguenti casi:

- 1** Difetti di fusione, porosità e cromatura.
- 2** Difetti di fabbricazioni riconosciuti dal nostro ufficio tecnico.

La garanzia decade nel caso in cui si verificano le seguenti situazioni:

- 1** Deterioramento delle finiture superficiali (cromate o diverse) dovuto all'uso di prodotti per la pulizia contenenti acidi o sostanze abrasive; la durata è infatti subordinata alla cura ed alla delicatezza d'uso da parte dell'utente.
- 2** Deterioramento della rubinetteria imputabile ad una installazione effettuata in modo non corretto.
- 3** Utilizzo della rubinetteria in modo non corretto.
- 4** Riparazioni e manutenzioni effettuate in modo non idoneo e senza preventiva autorizzazione dell'Azienda.

La garanzia Zucchetti non è rinnovabile.

Per informazioni più dettagliate si rimanda al documento M-UFC009 consultabile su richiesta presso l'ufficio tecnico della azienda o all'indirizzo e-mail support@zucchettidesign.it

ZUCCHETTI. WARRANTY

All Zucchetti products are subject to functional tests during each step of the production process to provide the most accurate quality performances.

All items are guaranteed in accordance with the applicable laws concerning warranty in the country where the buyer's registered office is, for purchases attested by official receipt.

The warranty covers the following cases:

- 1** Casting, porosity and chrome plating defects
- 2** Manufacturing defects recognized by our technical department.

The warranty does not apply in the following cases:

- 1** Deterioration of surface finishes (chrome plated or different) due to use of cleaning agents containing acids or abrasive substances; the duration in fact depends on the attention and care which they are handled by users
- 2** Damages caused by improper installation.
- 3** Damages caused by improper use of the fittings.
- 4** Repair and maintenance made incorrectly and without previous Company authorization.

Zucchetti warranty cannot be renewed.

For more detailed information please refer to M-UFCO09 document available on request from the technical office of the Company or from the e-mail address support@zucchettidesign.it.

ZUCCHETTI. CURA E MANUTENZIONE DEL PRODOTTO

Per mantenere a lungo i prodotti in perfette condizioni ed evitare depositi di calcare è importante effettuare una pulizia periodica ed accurata, secondo le modalità indicate.

Le superfici dei prodotti devono essere pulite con detergenti neutri delicati oppure con acqua e sapone.

Zucchetti consiglia di utilizzare in alternativa il prodotto Zetabrill (art. R99993).

Sciacquare sempre con cura le superfici per eliminare definitivamente i residui del prodotto di pulizia ed asciugare bene con un panno morbido, per prevenire il deposito di calcare.

È importante non utilizzare mai detergenti che contengano acido cloridrico, fluoridrico, fosforico, formico, acetico oppure candeggina o ammoniaca.

In caso di utilizzo di prodotti potenzialmente dannosi risciacquare immediatamente con abbondante acqua.

Non spruzzare mai i detergenti direttamente sui prodotti, ma vaporizzarli su un panno morbido.

Non utilizzare pulitori a vapore perché le alte temperature possono danneggiare i prodotti.

Non utilizzare spugne o spazzole con effetto abrasivo che danneggerebbero irrimediabilmente le superfici.

Si consiglia di evitare di lasciare a lungo sulle superfici residui di prodotti cosmetici o per l'igiene quali creme, saponi, lozioni, dentifrici, ecc.

PRODOTTI IN FINITURA VERNICIATA

Sulle superfici verniciate utilizzare solamente acqua eventualmente con l'aggiunta di detergenti neutri (pH 6,5 – 7,5) e caratterizzati da additivi leggeri. Non usare mai solventi o panni abrasivi.

PRODOTTI IN FINITURA PVD

Per le superfici in finitura PVD servirsi sempre di un panno imbevuto di detergente diluito e con pH neutro (6,5 - 7,5). Non spruzzare mai direttamente il detergente sulla superficie in quanto lo spray potrebbe lasciare aloni. Non utilizzare detersivi contenenti acido cloridrico, acido formico o acido acetico, o contenenti acidi o componenti abrasivi.

PRODOTTI IN ACCIAIO INOX

Per la pulizia di tutta la rubinetteria in acciaio inox si raccomanda l'utilizzo di prodotti specifici per la cura dell'acciaio inox. Possono essere utilizzati detergenti commerciali a pH neutro (6,5 – 7,5) e all'occorrenza, solo sulle parti in acciaio, alcool isopropilico o carbonato di sodio diluiti.

Non usare in particolar modo detergenti a base di acido clorico, fluoridrico, fosforico e muriatico.

SOFFIONI DOCCIA

Per il buon funzionamento nel tempo dei soffioni ed evitare l'accumulo di calcare si consiglia una pulizia regolare degli ugelli anticalcare, strofinandoli delicatamente con un panno morbido per favorire il distacco dei depositi.

AERATORI

Per avere sempre un buon getto di acqua si consiglia la pulizia periodica dei filtri degli aeratori, immergendoli (dopo averli smontati) in una soluzione di aceto diluito o utilizzando il prodotto Zetabrill (art. R99993).

Alcune finiture (C8, C3, C50, C51, C40, C41) possono variare o virare la tonalità nel tempo, perché sono soggette a ossidazione e mutano a seconda dell'ambiente in cui il prodotto è installato, all'utilizzo e alle proprietà dell'acqua. Questo implica che ogni prodotto può assumere un aspetto unico con il passare de tempo.

ZUCCHETTI. PRODUCT CARE AND MAINTENANCE

To keep the products in perfect conditions for a long time and avoid limescale deposits, it is important to carry out a periodic and thorough cleaning, according to the indicated methods.

The products' surfaces must be cleaned with mild neutral detergents or with soap and water. Zucchetti alternatively recommends to use the Zetabril product (code R99993). Always carefully rinse the surfaces to completely eliminate residues of the cleaning product and dry completely with a soft cloth to prevent limescale deposits.

It is important never to use cleaners that contain hydrochloric, hydrofluoric, phosphoric, formic, acetic acid, or bleach or ammonia. In case of using potentially harmful products, rinse immediately with abundant water.

Never spray detergents directly on the products but spray into a soft cloth.

Do not use steam cleaners, because high temperatures can damage the products.

Do not use sponges or brushes with an abrasive effect that would irreparably damage the surfaces.

It is recommended to avoid leaving residues of cosmetic or hygiene products such as creams, soaps, lotions, toothpastes, etc. on the surfaces for a long time.

PRODUCTS IN PAINTED FINISH

On painted surfaces, use only water, if necessary with the addition of neutral detergents (pH 6,5 – 7,5) and characterized by light additives. Never use solvents or abrasive cloths.

PRODUCTS IN PVD FINISH

For surfaces in PVD finish, always use a cloth soaked in mild, diluted detergent, with neutral pH (6,5 – 7,5). Never spray the product directly on the surface as the spray could leave halos. Do not use detergents containing hydrochloric acid, formic acid or acetic acid, do not use detergents containing acid or abrasives components.

PRODUCTS IN STAINLESS STEEL

To clean all stainless steel taps, it is recommended to use specific products for the care of stainless steel.

Commercial detergents with neutral pH (6,5-7,5) can be used and, if necessary, only on the steel parts, to use diluted isopropyl alcohol or sodium carbonate.

Do not use in particular detergents based on chloric, hydrofluoric, phosphoric and muriatic acids.

SHOWER HEADS

For a proper shower heads functioning over time and to avoid limescale accumulation, it is recommended regular cleaning of the anti-limescale nozzles, rubbing them gently with a soft cloth to help to detach the deposits.

AERATORS

In order to always have a good water jet it is recommended the periodic cleaning of the filters of the aerators, dipping them (after having removed them from the taps) in a solution of diluted vinegar or using the product Zetabril (code R99993).

Some finishes (C8, C3, C50, C51, C40, C41) may vary or change their tone over time. These finishes are subject to oxidation and change according to the environment in which the product is installed, to the use and to the water properties. This means that each product can take on a unique appearance over time.
